EXECUTIVE SUMMARY

The following charts are based on integrating the four programmatic volume reports from the FSA Data Center for the 2008-09 award year with the college type and control from the trial three-year CDR data for FY2007 as published by the US Department of Education on December 10, 2009. Colleges were matched from the various data sources using the OPE ID.

Enrollment data included in the trial three-year CDR data release appear to be too spotty and inaccurate to permit calculating average Title IV aid per recipient for the colleges in the data set. In addition, 720 of the 6,279 colleges were missing type and control data.
